CHAPTER 4
THE FILIPINO ARTS AND CULTURE
(Week 4)

MY JOURNEY

The Fishermen by Ang Kiukok, 1981

Filipino Arts refer to the various forms of the arts that have developed and accumulated in the Philippines from the beginning of civilization in the country up to the present era. They reflect the range of artistic influences on the country's culture, including indigenous forms of the arts, and how these influences have honed the country's arts.

In this chapter, you will have a deeper appreciation of the arts in the Philippines from the pre-colonial period. You also need to reflect on its implications to our cultural heritage.

MY EXPECTATIONS

At the end of this chapter, the students should be able to:

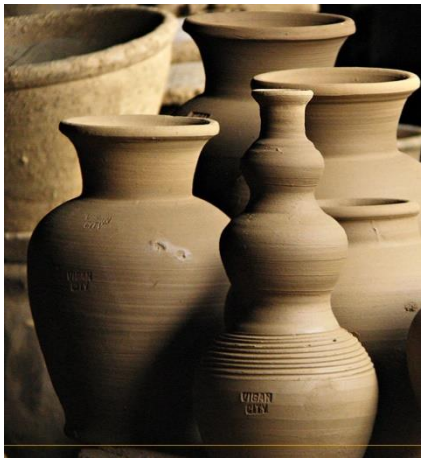

1. understand the Pre-Colonial Art forms in the Archipelago;
1. identify the famous indigenous musical instruments in the Philippines;
2. demonstrate knowledge about importance of Philippine Artistic Handicrafts;
3. determine the common handicraft materials and the traditional handiwork in the Philippines; and
4. recognize the importance of the Philippine GAMABA Awards and its awardees.

MY INITIAL TASKS

Directions: Choose the correct region/s these Filipino handicrafts originate. Then, write a 10-sentence essay about your perceptions on the importance of these handicrafts.

_____ _____ _____

a. Cordillera and Southern Luzon Regions
b. Mindanao Regions
c. Ilocos Region

MY READINGS

Like in any other country, art influenced the life of the Filipinos and the things that surround them. The Philippine arts reflect a Filipino society with diverse cultural influences and traditions of the *Malayan* peoples such as the Chinese and Indians. Islamic traditions were introduced to the Philippine Islands in the 14th century.

Likewise, Europe and the United States intensely influenced Filipino artists. However, while drawing on Western forms, the works of Filipino musicians, painters, and writers are imbued with distinctly Philippine themes. By expressing the richness of the culture of the archipelago in all its diversity, Filipino artists have helped in shaping a sense of national identity. Many Malay cultural traditions have continued until this time despite foreign rule. Muslims and tribal groups maintained distinct traditions in dance, music, and sculpture.

Indigenous arts in the Philippines are labors of love and patience. The intricate carvings on wood, metal, stone or glass are products of skillful hands and imaginative minds of the different tribes of the archipelago. Indigenous musical instruments like the flute, drums, rainsticks, native guitars, and bells made of bamboo, animal skin, seeds, and seashells. The careful manipulation of these materials produces sounds and unique instruments used mostly in tribal dances and rituals (Ramirez, 1999).

Pre-Colonial Art forms in the Archipelago

The arts in the Philippine archipelago had its past and continued to develop by numerous modern artists. With their different context regarding history, style, cultural symbols, and meanings, these artworks are portrayed (Estrella, 2017).The following are some known artforms in the Philippines:

Agung. It is a musical instrument of the *Kulintang* ensemble which is played by one or two persons depending on its number. By using a rubber-padded beater, this instrument is performed on both the boss/knob and the face of the gong.

Banog-banog. It is a dance that portrays hunters shielding in their chickens from the famishing hawk.

BlitB'laan. It is a courtship dance of the Bilaan of Davao del Sur mimicking birds during mating season. The females scurry to safety, burying their heads under their wings (using the malong), but the aggressive males follow them wherever they go.

Cañao. It is a ritual-dance performed during native feasts or celebrations in the highlands of the Cordilleras in the Luzon area of the Philippines. It is a symbol of triumph or expectation for abundant crops.

Gangsa. It is an indigenous musical instrument of the Bontoc tribes of Kalinga, Ifugao in the mountain regions (the Cordillera) of the northern Philippines.

Inamong. It is an ethnic dance among Tigwahanon Manobos in the Province of Bukidnon and performed during their harvest time. This type of dance shows a couple, with their bodies and arms slightly bent forward, mimicking the movement of a pair of flirting among monkeys.

Kadal Iwas. It is a dance performed by the T-boli and Tausug tribes respectively which mimic a mealtime of monkeys in removing nits and lice from each other. A variation of this dance is to mimics a monkey who sits on an anthill by mistake and is attacked by angry ants all over his body.

Kashawing. It is a ritual among the Maranaos and is performed to ensure a good harvest.

Kinabua. It is ritual dance among the Mandaya tribes in Northern Mindanao. This type of dance portrays the Hawks' use of sweet songs to lure out the hen and the chicks that are made into a meal.

Mamakar. It is a Bontoc War Dance performed during the planting season and a bountiful harvest.

Man-manok. It is a dance performed in Vigan, Ilocos Sur. This type of dance mimics fowls wherein a tribal blankets that represent the colorful plumage of wild cocks are shown off by the warriors who intend on winning the attention of the maiden hen.

Mayvanuvanua. It refers to a sacrificial rite performed at the beginning of the summer fishing season among *mataw fishers* in Batanes Island. This type of dance is an act of invitation to capture the fish dorado successfully.

Mumbaki. It is a local term which refers to the "sayer of prayers" among the Ifugaos in Northern Luzon. These prayers are performed during funerals, wedding, Thanksgiving, and other celebrations. This is offered to the supreme deity, *Maknongan.*

Ngilin. It is a cultural dance performed among the Kalinga tribe during Marriage rituals and other celebrations like the *budong* (peace pact). This type of dance is played to simulate the romantic or peaceful interactions of a rooster and a hen.

Pagdiwata. It refers to a ritual performed among the ethnic group in the north and central Palawan. The ceremony is held on various occasions including bountiful harvests and weddings.

Pangalay (also known as Sea Gypsies).It is a native dance of the Badjao performed during weddings and other social gatherings. This type of dance emphasizes the agility

of the upper body wherein the rhythmic bounce of the shoulder with the simultaneous alternating waving of arms is the essential movement.

Sampak. It is a war dance performed by the Mandaya tribe. This type of dance requires excellent skill in the handling of a shield, spear, and a sword.

Saut. It is a ritual dance performed by a male Talaanding tribe presenting their expertise in style and arts in fighting their opponent. This ritual dance is also an offering to their *magbabaya* (god).

Talip. It is a courtship dance among the Ifugao. This is performed during the celebration of the *intaneg* (wedding). In this dance, the man traps a woman with an attractive blanket to place on her shapely shoulders.

Importance of Philippine Artistic Handicrafts

The Philippines is abundant in natural resources that scattered throughout its islands. Filipino artist used the parts of trees, plants, and other natural resources as the raw materials and turned them into simple, yet useful tools or instruments. This type of work is called *Artistic Handicrafts* (sometimes called *artisanry*). Although this type of art changes from time to time it is still imperative to continue and is preserve due to the following reasons:

1. It promotes our cultural legacy through the use of indigenous materials.
2. It shows an individual's creativity and superior ingenuity.
3. It encouraged producers to produce more raw materials.
4. It generates employment.
5. It developed values of perseverance and resiliency.

Common Handicraft Materials

Every Filipino family owns handicraft products like baskets, brooms, feather dusters, and other furniture. Likewise, accessories like earrings, bracelets, necklaces, and other clothing apparel made from native products such as beads, shells, and seeds. These are clear indications that our handicraft industry is enjoying the patronage of Filipinos.

Filipino handicraft makers fashion them into accessories, bags, bamboo sofa sets, baskets, cabinets, clothes, lamp shades, wall décor, and others. The following are the typical materials needed in the making of Filipino handicrafts:

a. *Abaca* (*Musa Textilis*) - It is a tree-like herb resembling the banana plant. It is durable and dyed in different colors.
b. *Bamboo* (*BambusaSpinosa*) - It is for the furniture industry because of its strength and durability. It is also valuable material for basket and hat making.
c. *Buri* (*CoryphaElata*)- It is a palm from which three kinds of fibers, namely *buri, raffia,* and *until,* are taken. It can be dyed merely and woven into many shapes.

The buri leaf is the most flexible material used for making hats, boxes and other novelty items.

d. *Caragumoy* (*Pandanus Simplex*) - It is greenish grey as it dries and is used traditionally in making bags, baskets, hats, and mats.
e. *Coconut* (*CocosNucifera*) - It is the most utilized palm in the Philippines. Its cocomidrib is used primarily as handicraft material for the production of baskets, and brooms (tingting). The coco shells are used for manufacturing articles such as buttons, coin banks, lamp shades, pins, and others.
f. *Kalas*- It is a by-product of the buri palm. Locally, the term "kalas" (which means “to loosen") refers to the loosened strands of a buri rope. It creates an unusual, rustic pattern with distinct characteristics from its original material when artistically woven.
g. *Leather*- It is a material created through the tanning of skins of animals like carabaos, horses, snakes, alligators, goats, lizards, and others.
h. *Pandan-Dagat* (*PandanusTectorius*) - It is a variety of screw pine abundantly distributed along sandy beaches and coastal brushes in the Philippines.
i. *Rattan* (*Calamus Maximus*) - It is the most flexible material used in the manufacturing industry and been known to extend up to hundreds of meters long.
j. *Seagrass* (*RhynchosporaCorymbosa*) – It is a type of grass in shallow salty and brackish waters. The stems are distinctly triangular, and the leaves are broad and long.

Traditional Handiwork in the Philippines

The following are some handicrafts in the different regions of the Philippines:

1. **Jewelry** (Central Luzon, Southern Luzon, and Mindanao Regions). This handicraft is mostly in Central Luzon region, mainly from the province of Bulacan. You can also find related of this from Mindanao regions, but down south, you can even get powerful brass amulets and other accessories.
2. **Metal Craft** (Southern Luzon and Mindanao Regions). This type of handicraft is in Southern Luzon region, particularly in the province of Batangas. A very popular metal craft which is locally and internationally as an excellent source for a portable knife is called *Balisong*. Traditional weapons made from brass, bronze, and gold, are also abundant in the island of Mindanao.
3. **Pots and Jars** (Ilocos Region).The pots and jars known as *burnay* can found explicitly in the province of Ilocos Sur. These creations are made from Grade A clay through a method that has been practiced by locals since the pre-colonial times.
4. **Woven fabrics** (Mindanao Regions). These fabrics are woven traditionally, by interlacing threads using a manual machine called a *loom*. One of the common materials in this region is called *malong* which is historically used as a skirt and sometimes as a blanket.
5. **Wood Carvings** (Cordillera and Southern Luzon Regions). Fantastic wood carvings produced by the Ifugao in the northern region of the Cordilleras. Often, these wood carvings are depicting their indigenous gods. Excellent kitchenware like wooden bowls and utensils are in this region.

Philippine GAMABA Awards

Gawad sa **Ma**nlilikhang **Ba**yan Awards or GAMABA is an award that recognizes folk and indigenous artists who remain loyal to their traditions. This award is managed by the National Commission for Culture and the Arts (NCCA) through Gawad ng Bayan Committee. It began as a project of the Philippine Rotary Club Makati- Ayala but was adopted by the Philippine government in 1992 and become an institution through a Republic Act 7335.
